Postal Analytics and Reporting

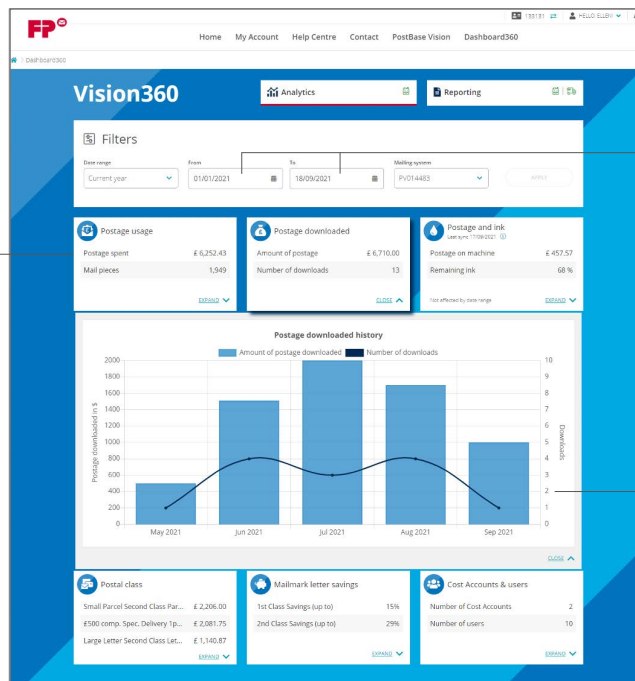

PostBase® Vision360

Monitor. Manage. Control.

Vision360 is accessed conveniently online, through the FP customer portal. Vision360 provides companies a 360 degree view of postal usage to better monitor, manage and control postal expenditures. Users can log-in and view important information about their franking machine including available postage and ink, gain insight to postal expenditures and generate chargeback and management reports with ease. The simple, yet powerful web based interface displays information in two parts, a graphical analytics dashboard and robust report generator with a full suite of reports with filters.

Vision360 Reporting

Select. Filter. Generate.

With Vision360, getting the right report you need in the format required is easy. Report types are displayed on-screen as tiles or in a list view that can be sorted by favourites, alphabetical, report type or subscription level. Once a report is selected, a set of filters allows report customisation. The report is previewed and can be printed or exported directly.
